SUMMARY

Front-end developer and UI designer who builds responsive, user-focused websites. Skilled in HTML, CSS, JavaScript, and Figma, and currently strengthening JavaScript during my BSCS studies.

EXPERIENCE

PROJECTS

PORTFOLIO WEBSITE

Front End Developer | 10/2024 – Present

- Designed and developed a responsive personal portfolio using HTML, CSS and JS.
- Showcased all UI/UX and development work in a clean, organized layout.
- Focused on mobile-friendly structure and simple navigation.

ROCK,PAPER SCISSOR GAME

HTML, CSS, JavaScript, DOM Manipulation
- Built an interactive browser game using DOM events and functions.
- Practiced JavaScript logic, conditional statements, and user input handling.

EXPERTIZO WEBSITE CLONE

HTML, CSS, ANIMATIONS
Recreated the Expertizo company website to practice responsive layout building. Implemented CSS transitions and animations for interactive user experience.

Xbox Landing Page UI Design

FIGMA, UI DESIGN, AND TYPOGRAPHY
- Designed a modern landing page inspired by Xbox brand visuals.
- Focused on clean layout, strong typography, and a product-focused hero section.
- Used consistent spacing, color balance, and component-based structure.
